

POST CARE INSTRUCTIONS FOR NEUROMODULATORS (Dysport, Botox, Nuceiva)

- Do not rub or massage the treated area for 24 hours after your treatment.
- Avoid anything that involves sweating for at least 4 hours after your treatment.
- Try to remain upright for 4 hours after your treatment. This is to avoid the risk of putting pressure on the treated area.
- It is normal to have mild to moderate swelling at the injection site for 15-60 minutes after treatment.
- Pain, bruising, and swelling are all very common side effects.
- If you need to apply makeup within 4 hours of treatment please use a powder foundation to avoid rubbing the treated areas.
- You will start to see results at 3-5 days post injection and full results by 2 weeks.

We would like to see you for routine follow-up at 2 weeks post treatment. Please schedule this visit the day of your treatment.

If you have any questions about this procedure during the 2 weeks post treatment, please don't hesitate to call the clinic 778.478.9695
